PROFESSIONAL SUMMARY

Java Backend Developer with hands-on experience developing scalable web applications using Java, Spring Boot, Spring Security, JWT, Hibernate, JPA, REST APIs, React.js, and MySQL. Experienced in designing secure backend systems, building RESTful APIs, implementing authentication and authorization, and integrating responsive frontends with backend services. Strong understanding of Object-Oriented Programming, Data Structures and Algorithms, Multithreading, and Database Design. Passionate about solving real-world problems and continuously improving software quality through clean, maintainable code.

EDUCATION

B.Tech in Artificial Intelligence & Machine Learning 2023 - 2026

Sri Venkateswara College of Engineering and Technology, Chittoor, Andhra Pradesh

WORK EXPERIENCE

Java Developer — IndoLike February 2025 - March 2025

Remote

- Engineered a real-time chat app in Java/Spring Boot that supported 500 concurrent users, reducing message latency by 30%.
- Created secure RESTful authentication APIs and WebSocket messaging endpoints, handling 10,000+ daily requests.
- Architected normalized MySQL schemas with Spring Data JPA/Hibernate, eliminating duplicate records and improving query speed by 20%.

PROJECTS

Centralized Campus Recruitment System

Technologies: Java, Spring Boot, Spring Security, MySQL, React, JWT

- Developed secure **RESTful APIs** using **Java, Spring Boot, Spring Security, and JWT** to manage job postings, student applications, and role-based access for Admin, Recruiters, Colleges, and Students.
- Designed and optimized a **normalized MySQL database** using **Spring Data JPA** and **Hibernate**, ensuring data integrity, efficient CRUD operations, and reliable application performance.
- Built a responsive **React.js** frontend and integrated it with backend REST APIs to provide a seamless recruitment workflow, including job management, application tracking, and user authentication.

TECHNICAL SKILLS

Programming Languages: Java, JavaScript

Frontend: Bootstrap, React, HTML, CSS

Backend: Spring Boot, JWT Authentication

Databases: MySQL

Tools: IntelliJ IDEA, Git, GitHub

Other: Eclipse, OOP, JDBC, Exception Handling, REST API, Spring Security

COURSE

Java Full Stack Development — Tata Strive 2026

ACHIEVEMENTS

- Solved 50+ Data Structures & Algorithms problems on LeetCode using Java.
- First Place, Chess — Selestas Fest, SVCET (College-Level Cultural Event).
