PROFESSIONAL SUMMARY

Entry-level Java Backend Developer with hands-on experience in Core Java, Spring Boot, JDBC, and RESTful APIs. Built backend systems including a multi-client chat application and a full-featured e-commerce platform with admin capabilities. Consistently practices problem-solving through Data Structures and Algorithms on LeetCode.

TECHNICAL SKILLS

Languages: Java

Frameworks: Spring Boot

Databases: MySQL

Web Technologies: HTML, CSS, JavaScript

Tools: Git, GitHub, Eclipse, IntelliJ IDEA

Core Concepts: OOP, JDBC, Exception Handling, Multithreading, REST API, Socket Programming

EXPERIENCE

Java Developer Intern — Remote

Feb 2025 – Mar 2025

- Built a console-based real-time chat application using Java Socket Programming, supporting 3 concurrent client connections via thread-per-client architecture.
- Integrated MySQL for persistent message storage and retrieval across client sessions.
- Received iterative feedback from mentor and refined the application across multiple development cycles.

PROJECTS

E-Commerce Platform | Spring Boot, MySQL, HTML, CSS, JavaScript

- Built a full-stack e-commerce web application with separate user and admin login flows.
- Implemented product search and sort functionality; admins can add, update, and remove product listings.
- Managed product and user data through CRUD operations connected to MySQL via JDBC.

Multi-Client Chat Application | Java, Socket Programming, Multithreading, MySQL

- Designed a console-based chat system handling 3 simultaneous client connections using thread-per-client architecture.
- Stored and retrieved chat messages using MySQL, ensuring persistence across sessions.
- Validated correct message delivery across multiple console instances during testing.

Banking Management System | Spring Boot, MySQL

- Developed REST APIs for account creation, deposit, withdrawal, and transaction history using Spring Boot.
- Applied dependency injection and IoC principles to build a modular and maintainable backend.

EDUCATION

SVCET, Chittoor

B.Tech in Computer Science & Engineering (AI & ML) — CGPA: 7.6

BITS, Kurnool

Diploma in Electrical & Electronics Engineering — 70.03%

MJP School, Gorantla

SSC — CGPA: 9.2

ACHIEVEMENTS & CODING PROFILE

- Solved 25+ DSA problems on LeetCode using Java.
- First Place, Chess — Selesta Fest, SVCET (College-Level Cultural Event).
